

ABOUT US

LongPack Games, a subsidiary of LongPack Ltd in Shanghai, China, brings over a decade of expertise in printing and packaging solutions to the industry. We have served over 1000 clients globally, delivering high-quality solutions.

Specializing in board games, our Western experienced team excels in sourcing and technical capabilities. We produce top-tier tabletop games, accessories, and customized components in wood, metal, and plastic. Our expertise ensures a perfect balance of cost, quality, and delivery time, instilling confidence in your game's launch.

We aim to be the preferred turnkey production facility for publishers and merchandisers, offering a knowledgeable workforce capable of handling any project efficiently. Quality, efficiency, and attention to detail define our approach, ensuring the delivery of exceptional board games in every aspect of production.

From initial concept to final product, we're committed to partnering with you every step of the way.

HERE WE GO!

1

Quotation **1 WEEK**

Quotation is available preferably with a full list of STL files with quantity and color information of each design. Estimated quotation is also available without STL file.

Quotation includes:

- STL file modification and Master sample cost
- Tooling cost
- Production cost

2

STL file Optimization

2-4 WEEK

**SUBJECT TO
QUANTITY OF DESIGN**

STL file optimization by Longpack engineer team.

Optimization includes:

- Deepening of details
- Adjustment of posture or details to avoid lockout (also called trap).
- Intensive Interaction to obtain a balance between production cost and design aesthetic.
- Customer final verification of 3D STL file before we move to next step.

3

Master Sample

2-4 WEEK

*SUBJECT TO
QUANTITY OF DESIGN*

Master sample production.
Master sample delivered to customer for
final confirmation on product design.

4

Mold Development

5-8 WEEKS

*SUBJECT TO
QUANTITY OF MOLD*

Mold made from the Master sample.
PVC sample produced with mold (identical grade
with mass production) and delivered to customer.

5

Mass Production

4-6 WEEKS

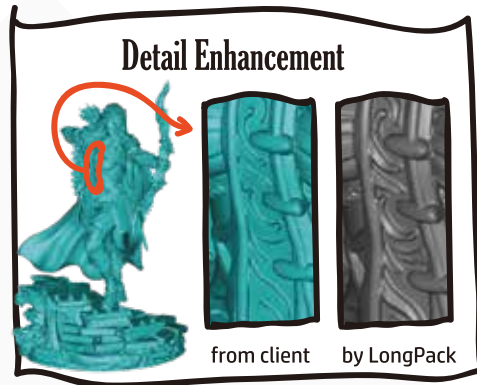

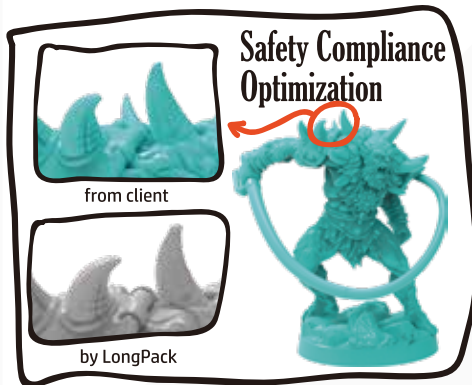

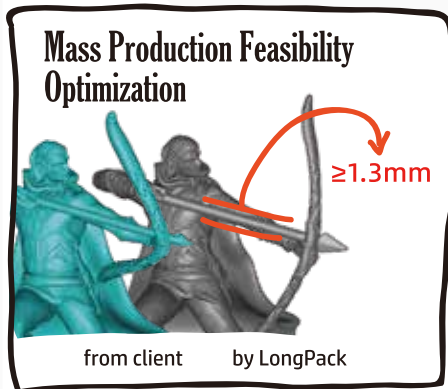

*SUBJECT TO
QUANTITY OF MOLD*

Injection and Assembly upon approval of PVC
sample.

Miniature File Optimization Service

Miniature File Optimization is one of our premium value-added services. With extensive miniature manufacturing experience, our engineering team conducts a comprehensive review of client 3D model files, followed by practical recommendations for production-ready optimization. Each file is carefully examined across four major categories:

Protect and Present Your Products with LongPack Custom Packaging Solutions

HEROES OF MIGHT & MAGIC III: THE BOARD GAME

LongPack Games achieved a highly efficient containment design for "Heroes of Might & Magic III: The Board Game," focusing on reducing the box height and enhancing protection. This project involved complex customization, including 90+ distinct designs and the use of 40+ different mold sets. Our

vertical stacking approach not only minimized the box height but also incorporated enhanced protection features such as thicker thermoformed trays and robust corner protectors, ensuring the game components are both compactly organized and well-protected.
